**Merlyn Seeley : Recipes From the Homestead** before purchasing it in order to gage whether or not it would be worth my time, and all praised Recipes From the Homestead:

1 of 1 people found the following review helpful. Recipes from the homesteadBy Buck killerI absolutely loved this book. The recipes were DELICIOUS! My family loves them too! I'll be sure to pass this book on to some of my friends from work. The ingredients were easy to find, and actually very inexpensive. You would think it would cost quite a bit to make a homemade meal, but not with these. Highly Recommended.

This is my first recipe book, it contains recipes that we use out on the Missouri Ozarks Homestead all the time. The recipes in here we have cooked on a simple box wood stove and it tastes like heaven! You do not have to have a box wood stove to cook these recipes, but we love the simplicity of it! Enjoy 12 different recipes filled with country charm, excitement and great taste just like we do out on the homestead. In this book you will learn to make 4 recipes each for breakfast, lunch and dinner just the way we do it down home! Enjoy!
